Plenary 5 - Tracking vascular health with ultrasound

Freitag, 6. November 2026 09:00 - 10:30, Kongressraum 1

ModeratorIn: Andreas Erdmann (Biel), Torsten Willenberg (Bern)

Longitudinal Duplex Ultrasound Metrics as Biomarkers of Vascular Health - What parameters to follow and impact on treatment

Präsentationszeit: 10 min
Diskussionszeit: 5 min

ReferentIn: Michel Romanens (Olten)

Ultrasound follow-up after large vessel vasculitis? diagnosis and follow-up of large vessel vasculites, useful or not?

Präsentationszeit: 10 min
Diskussionszeit: 5 min

ReferentIn: Markus Aschwanden (Basel)

Risk assessment and Monitoring Carotide Plaque Activity Current status on plaque activity monitoring and impact on treatment strategy

Präsentationszeit: 10 min
Diskussionszeit: 5 min

ReferentIn: Daniel Staub (Basel)

Ultrasound-Based Surveillance After Endovascular Interventions: Evidence and Gaps How to follow-up patients after endovascular therapy? Which ultrasound parameters to follow?

Präsentationszeit: 10 min
Diskussionszeit: 5 min

ReferentIn: Rolf Engelberger (Fribourg)
